Tin Tiles Today

The versatility and fire resistance of tin make it ideal for ceilings and backsplashes. But it's the sheer WOW factor that makes tin tiles indispensable for architects, decorators, and designers. Today, you'll find beautiful tin tiles everywhere, from kitchen backsplashes to bars, restaurants, and retail spaces, where they add a touch of elegance and class.

For DIY enthusiasts, our patented Snap Lock™ system makes quick work of boring drywall and even covers popcorn ceilings—no scraping needed! Browse our on-line photo galleries at www.AmericanTinCeilings.com and contact us to learn more about how we make it easy and affordable to have the tin ceiling or project of your dreams.

Made in America

American Tin Ceilings has been producing authentic reproductions of early 1800s Victorian tiles since 2002. We manage the entire manufacturing process in the U.S., from bulk metal coils to mold-making, pressing, finishing, and shipping. This allows us to bring you American-made quality, the best prices possible, and best-in-class customer service. You can be sure the tiles you get are the real deal—genuine .010 tin-plated steel.

We currently produce over 35 patterns in 50+ colors. To ensure you will absolutely love your choice, we offer a swatch program so you can see exactly how remarkable our tin tiles are and how great they will look in your home.

Call (888) 231-7500 8:00-5:00 EST M-F or visit www.AmericanTinCeilings.com/samples.

Affordable and Easy to Install

American Tin Ceilings makes it easy to have the tin ceiling of your dreams, crafted to the highest standards. Customers are pleasantly surprised that prices start under $2/sq. ft. The beauty and durability of a tin ceiling really is a budget-friendly way to create spectacular results. Three tile systems to choose from are available in more than 35 beautiful patterns and over 50 color choices. Let your creativity run wild!

Nail-Up: Easy to install over furring or plywood.

Snap Lock™ Covers existing drywall or plaster ceilings— even popcorn!

Drop-In Use with any 2’ x 2’ ceiling grid system with 15/16” T-bar grid.
We’ll Help You Get the Job Done Right!

With perfectly matched switch plates, detailed and easy-to-follow installation videos, an online inspiration gallery, hard to find tools, and even matching touch-up paint, American Tin Ceilings has you covered. Visit www.AmericanTinCeilings.com for current pricing and information.

Our patented Snap Lock™ system even covers popcorn ceilings!

Need Help?
Our design consultants are happy to help you layout and order your project. Just call (888) 231-7500.
Choose Your Pattern

We have 35+ patterns to choose from. Mix and match to create your own uniquely beautiful project. Filler patterns are ideal for transitioning between full patterns and the outer perimeter of a ceiling installation. Blank tiles are available for Drop-In installations. All tiles are 24” x 24” square. Patterns below are shown in Brushed Satin Nickel.

Choose Molding

All molding comes in 4’ lengths and is available in all colors. Visit www.AmericanTinCeilings.com for profiles and specs.

FREE Cope and Miter

We will pre-cut copes and miters for standard 90° corners at no extra charge.
Choose Your Color

We offer resilient powder-coated, as well as raw and unfinished, tiles in every pattern. With over 50 colors to choose from it’s easy to create the ceiling or project of your dreams. Mix and match patterns and colors to bring drama and interest to your designs. Samples are a great way to make sure you love your colors before you commit. We have a wide selection of matching switch plate covers to complement your panels. Visit us online for information on custom and pre-made sample packs.

Choose Your Installation System

Visit www.AmericanTinCeilings.com for detailed installation information including installation videos!

**Nail-Up Ceiling**
Use over plywood or furring. A ¼” nail-rail runs around the perimeter of each panel. Nail-rails overlap for easy installation. Nail-Up panels are also used for backsplashes, but are attached using a combination of construction adhesive and nails.

**Snap Lock™ Ceiling**
Use over drywall or plaster. Snap Lock™ is an American Tin Ceilings exclusive. This patented system even covers popcorn ceilings and uses an interlocking flange system that screws directly into existing drywall or plaster, eliminating the need for wood furring strips. No need to scrape the ceiling!

**Drop-In Ceiling**
Use with any 2’ x 2’ ceiling grid system with 15/16” T-bar grid. If your current grid is 2’ x 4’, ask us about our T-bar conversion pieces. Choose our Acoustical Drop-In tiles to reduce echo and improve sound quality in sensitive rooms.

**Need Help?**
Our design consultants are happy to help you layout and order your project. Just call (888) 231-7500.

Backsplash, Wainscoting and Special Projects
Choose Nail-Up tiles and install with construction adhesive rather than nailing. Use over drywall, wood, or plywood. The ¼” nail-rail that runs around the perimeter of each panel will provide overlap for quick and easy installation.
